ARREST CLERK FOR EMBEZZLEMENT OF MUNICIPAL FUNDS

Hector S. Cowper, Clerk and Comptroller of Saanich, Reported By Auditors Short \$11,000 In Accounts; Municipality Will Be Protected From Loss.

The arrest of Hector Spencer Cowper, Municipal Clerk and Comptroller of the district of Saanich, was effected by the Saanich police this afternoon.

The information and warrant was sworn out before Magistrate Jay in the Saanich Police Court at 12.33 p.m. to-day by Reeve George Fraser Watson in person, and in the presence of the police commissioners. The Reeve took action after a further conference with the municipal solicitors and the Attorney-General's Depart-

The information was placed in the hands of Chief of the Saanich Police Peter Brogan at once, and constables dispatched to affect the arrest of Mr. Cowper, who had been at large since, according to the Reeve, he confessed to embezzlements last evening in the presence of witnesses. The amount placed by the auditors as missing is nearly \$11,000.

as missing is nearly \$11,000.

The arrest was effected at 12.50 pm. at his residence, Obed Avenue, by Chief of Police Brogan in person. Mr. Cowper gave himself up quietly, following a pathetic scene in which he bade farewell to his wife and children. The police officers were visibly affected by the pathos of the moment, and accorded every opportunity to the accused to make his addeu.

How Story Came Out.

Consternation reigned in Saanich Convention here, said he was last night when the allegations of em-

doresting the United Farmers' Conseteration reigned in Saanich last night when the allegations of embeaslement of nearly \$11,000, was made by members of the Saanich Council to election gatherings at Royal Oak and Cedar Hill. Reeve Watson was deeply moved, having difficulty in making the statement.

—Clerk-Cowper was said to have admitted the peculations, which have continued from the time he was appointed in 1914, the hundreds of individual items appropriated being generally for small sums.

—The condition of affairs was discovered by the auditors, Ismay, Boiston & Co., who were appointed last Summer upon the death of the late J. S. Floyd.

—The Auditor's Statement.
—For the first time in many years the Saanich election was this year being carried on without presentation of detailed municipal accounts, this omission being at first due to inability of the Clerk to strike a balance, and later to the refusal of the enditors to pass the accounts as submitted.

Reeve Watson's statement at the consistion of any names or amounts. He said, "One of the municipal officials, in whom all Saanich has had the most implicit confidence, a man of outstanding ability, has fallen the victim of a weakness, whereby the funds of Saanich are short many thousands of dollars. This has continued through many years, through the administrations of four Reeves, and the saddest point of the whole offair is the reflection the matter throws upon another man now dead, the late J. S. Floyd, who was highly respected as an auditor.

No Work or Aid for Men Outside City, Mayor Declares

Two hundred unemployed men from Victoria and surrounding municipalities marched down to the City Hall just before noon! to-day and demanded that the City Council give them "work or full maintenance."

While the crowd stood waiting on the pavement outside the City Hall main entrance, Chief of Police John Fry arrived. He immediately telephoned to Mayor Reginald Hayward, who had not arrived at his office, and explained the situation to him. The Mayor agreed to see a delegation of three representing the unemployed later. The Chief told the men of the Mayor's decision and asked them to disperse. The crowd immediately marched back to the headquarters of the Victoria and District Council for the Unemployed on Broad Street.

At the subsequent conference with the Mayor, W. E. Pierce, of Saanich; W. Stonler, of Saanich, and J. Stafford, of Victoria, represented the unemployed.

From Port Muller, Alaska, according to radio advices, five smoking volcances can be seen within a radius of 200 miles. Shishaldin, on Unimak Island, is smoking heavily, and Unnari Crater, west of Chighik and about thirty miles from Port Muller, belehed forth smoke and flames. Two hitherto quiescent volcances east of Sand River Lake, known as the "Two Sisters," smoked heavily and two inches of ashes have fallen at Port Muller, probably from the Paviot eruption. The entire territory within 100 miles of Paviot is reported to be covered with fine, ashes ranging in depth of from one-sixteenth of an inch to three inches.

The police authorities here are facing the utmost difficulty in enforcing the liquor laws members of the posice commission explain. The 1922 police commission was discouraged in its efforts to enforce the law last year by the failure of its most promising liquor case. Members of the police commission are determined now to stop bootlegging, which, it is declared, is proceeding here. HOCKEY ACCIDENT CAUSED A DEATH

BRITISH GOVERNMENT WILL PAY NO HEED TO GERMAN RUHR PROTEST

Italian Premier's Attitude Regarded As More Nearly That of British Than French; Outposts of French Army Placed East of Essen.

Essen, Jan. 12.—The French have moved their outposts to Gelsenkirchen, three miles northeast of Essen, and to Velbort, five miles to the southeast.

London, Jan. 12.—The British Government will give no recognition to the German protest against the French advance into the Ruhr district which the German Government addressed to the Allies last night, and in no way will the protest affect its action,

it was authoritatively stated this afternoon.

Whenever it becomes necessary, the British representatives on the various inter-Allied commissions will absent themselves in order to demonstrate the British dissociation from the present French action in the Ruhr district.

Otherwise, it was added, Great Britain would continue to act with the Allies.

It is considered in political quarters here that the attitude of Premier Mussolini of Italy seems to correspond to that of Great Britain rather than of France and Belgium. It is possible that athough the Italian representative at the Allied conference decided in favor of the French plan for the Ruhr district, Premier Mussolini declined to dispatch even a small detachment of troops and protested against the pelicy of force.

The British belief that the Germans made a mistake in shifting the coal syndicate offices to Hamburg from the Ruhr district was reiterated to-day, the idea being expressed that such a course was only likely to antagonize the French and spur them on to further seizures.

Views Expressed by Canadian Labor Leader

Ottawa, Jan. 12.—"The military expedition on the part of France into the Ruhr Valley would never have taken place if the labor movement in France had been as solid as it was in 1919. If a plebiscite could have been taken of the workers in France, the action of the last few days would never have resulted. In France, as in all countries, there is a group of industrialists and financiers who are wedded to militarism, and the industrial captains of France have joined with the militarists to insure control of the coal and steel industries of Europe."

Such was the statement of his impression of the present European crisis made in an address here last night by Tom Moore, President of the Dominion Trades and Labor Conference, recently held in Geneva.

Scheme Formally Endorsed F. Wells in San Francisco and Government Will Be When \$76,000 Taken Last Interviewed September

Being Police Investigation Clears Young Man's Name

At the luncheon of the entertainment group of the Chamber of Commerce to-day, A. M. Altken reported on the bird sanctuary. The Government could not really do much. The matter was largely up to the people themselves. M. B. Jackson, K. C., M. P. P., chairman of the Game Board, had promised to give all the help in his power. The idea would be to prohibit the shooting of waterfowl in the Gorge and Portage Inlet. Letters had been sent to the authorities asking that shooting in these waters be precented.

To this the Saanich police promised cordial co-operation. The provincial police, said the officers had been instructed to enforce the law.

"There seems to be a joker in the law," remarked Chairman Frank Waring. "A man can stand anythe shooting is lawful. What is the shooting is lawful. What is the shooting is lawful. What is wanted is an order to prohibit the destruction of the birds."

"Its no good trying to have a sanctuary," remarked Alderman B. R. Ker, "unless the Government prohibits shooting within a mile radius, also you must get somebody to feed the birds."

The scheme of establishing a bird sanctuary in the Gorge and Portage

not been near Vancouver for several years.

Recently strong objection was taken by counsel for the family to the fact that the police hed not cleared the name of Wells and an offer was made by his father to bring him back for examination.

This morning the chief of police received a telegram from the San Francisco police authorities to the effect that the story cold by Wells' relatives that he was working as a painter had been carefully checked and was true. Wells was in San Francisco on the date of the payroll robbery here, the time checks of the concern for whom he was working showing that he was employed on that date.

being drawn up for submission to the City Council.

Mr. Waring expressed pleasure that the matter had been put over at last. There was some work to be done in connection with clearing the site and putting in necessary improvements. He suggested going at the improvements gradually, doing as much as was possible each year. The site would accommodate about 400 cars at one time end give each ample room. It was expected that a rental of about 4300 would be obtained from the athletic association. Some financial assistance was expected from Sanich and also from Oak Bay.

A letter was read with seference to the tourist camp at Spokane. The rumber of tourists for the year was 7.075. It had been found that the making of a small charge par day was helpful in keeping out undesirables. London, Jan. 12.—The British trade view of the Franco-Belgian-Italian metion in Germany is voiced by George Terrell, Unionist M. P., in an interview as representing the National Union of Manufacturers.

Mr. Terrell pointed out that the recent fluctuation in French exchange had made business practically impossible and this was of vital concern to British traders dealing with France. There was no evidence, he said, that force by France would produce reparations, but it would only complete Germany's financial collapse and destroy the chance of getting anything. Mr. Terrell declared Germany had not kept faith with anyone and said she had courted financial suicide by wilful depression of her currency and exchange, but that exchange had now got completely out of hand.

The withdrawal of the United States troops from Germany. Mr. Terrell added, would be followed by growing clamor for withdrawal of the Hritish troops. Britain would be faced by a deplorable state of affairs if her troops were taken away, for once withdrawn they probably never would be allowed to return.

He hoped nothing would be done which would weaken Great Britain's alliance with France.

ARREST CLERK FOR EMBEZZLEMENT OF MUNICIPAL FUNDS

(Continued from page 1.)

Reeve's Opinion.

In a personal statement to The Times this morning, after conferring with the Municipal Solicitors. Barnard, Robertson, Helsterman and Tait, Reeve Watson charged that Mr. Cowper had made a confession covering the shortage of \$10,919 reported by the auditors, Ismay, Boiston & Co., after an examination of the books of the Municipality.

The confession, stated Reeve Watson, was made to him by Cowper in the presence of officials. At present, he stated, no specific amount could be traced in any one year, but it is known that the securities of the corporation were intact. There is no shortage in bonds or other securities, but the shortage is alleged to have taken place gradually from the year 1914 onwards to date. That such money, if taken, was taken from cash receipts was the opinion expressed by the Reeve.

Reeve Watson voiced the opinions of the Council in stating the whole

affair was a profound shock from which they had not recovered.

"I wish to make it clear to the electors," he stated, "that the present unfortunate position is one over which I had no control. Nine years ago the Reeve and Council then in office placed in authority as auditor the late Mr. Floyd, in whom all had absolute confidence and one who performed his duties faithfully.

"Much as I regret it, I feel it my duty to place the whole facts before the public. The annual report of the auditors was not ready for the nomination day. It was delayed. Later the auditors reported the shortage of nearly \$11,000, and followed this upwith their written statement overtheir signatures.

"The first trace of anything unusual was found in the books of the year 1921, when certain items did not balance. So far as I can learn the securities of the corporation are allowed in the books of the year learn the society intact. There will be only a slight loss from the shortage, for Mr. Cowper was under bond for \$5,000 by the London Guarantee Company, and his equity in certain property, it is thought, will make up, with the bond, about \$10,000 or so," said the Reeve.

Mr. Cowper was examined in the

Sounds strange, does it not? Yet that is how Mr. J. Cartier says Zam-Buk is regarded by his family. Mr. Cartier, who is a member of the family of the late Sir George Cartier, is Justice of the Peace and Assistant Clerk of the Circuit Court, Montreal. He first discovered the wonderful power of Zam-Buk by using it for eczema, which it completely ended. Since then his family is never without it.

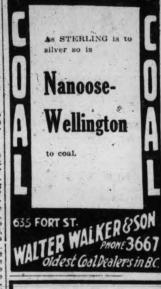

"Allow me to express my gratitude," he writes, "for the benefit I have derived from the use of Zam-Buk. I have proved that it is, without doubt, the finest remedy for eczema. Its general healing and curative powers are immense. We call it 'Our Family Doctor,' and are never without it."

New York, Jan. 12 (Canadian Press)

—A patient who came from Canada to try the auto-suggestion treatment of Dr. Emile Coue is today reported to be ready to return home practically cured. Those who have been witnessing the Coue clinic here declare the case of the Canadian is the most remarkable feat the little French doctor has accomplished since his arrival in New York.

The name of the patient is withheld, as well as his place of residence. The only information those in charge of the clinic would give out was that the patient had come from Canada and was a former newspaperman. Dr. Coue kept the Canadian with him after the public clinic yesterday and worked with him in a private room. The man, it was said, was to all appearances are automaton, his control of the control of the clinic worked with him in a private room. North Vancouver, Jan. 12.—Dougaid Donaghy, a resident of the North Shore and municipal solicitor for South Vancouver, was successful in his opposition to former Mayor George H. Morden, whom he defeated by 344 votes, the respective figures bing 865 against 521, in yesterday's election. Other candidates elected are:

Aldermen—E. H. Bridgeman, H. B. Stoker, W. A. Tolmie, B. E. Townsley, W. J. Irwin and E. A. Harron.
School trustees—A. L. Clements, William Dodson and A. G. Perry.

Ran Across Floer

Then he ran across the floor. First he walked, then at Coue's insistence he ran, a stiff run, to be sure, but obviously more than he had done before in a long time. Though not yet middle-aged, he ran like an old man. Coue put him through other experiments. He made him write, an act that had been a matter of distressing effort and productive of illegible scrawis a few days ago. To his astonishment and delight and to his wife's almost tearful pleasure, he wrote, "I am glad," with ordinary speed and facility.

"I congratulate you," said Coue. "You will get well. You are treating yourself correctly."

The man's wife declared that if her husband was not completely cured before Dr. Coue left New York they would follow him back to France. Other civic election results on Vancouver Island and the Mainland yesterday were as follows:

DISTRAINING FOR DEBT.

If Germany brought back the enormous sums she has been accumulating in foreign countries ever since the armistice so that she could plead poverty to the Reparations Commission, she would be able to pay a very considerable proportion of the bill she owes to France. In 1871 France had to pay Germany because she had the money at home, and German soldiers were in that home. her good money outside of Germany territory since the armistice and using worthless money at home, France is now going to take over resources of equal value and hold them until her debtor mays. By the way that in its general applicapays. By the way, that, in its general applica-tion, is what is done in Germany in civil actions. If von Ludendorff were to force his way into vor Hindenburg's home and tear it to pieces, von Hindenburg would go after him in two ways. He nter a criminal charge and also would start action for damages. Getting judgment in the civil action he would put a bailiff on Ludendorff's property, if that individual did not pay, and would distrain it in satisfaction of the amount of the damages, and everybody in Germany, excepting possibly Ludendorff, would say he was justified in doing so. France is now on a distraining mission. Incidentally, she is pursuing the plan adorted by Germany, in her the plan adopted by Germany in her own case fifty years ago, when von Moltke's soldiers occupied the most important departments of the country and released them one by one according to the instalments of the indemnity—not reparations-France paid.

TO-MORROW'S ELECTIONS.

Victoria is more than ordinarily interested in the annual elections which the surrounding municipalities will hold to-morrow. It has watched and will continue to watch the progress of the three sister communities and very took place in Belgium more than eignaturally welcome all advances that will be made. That would be different, of course. from time to time in respect of those questions in which the spirit of co-operation may be given full rein.

There are a number of public matters in which the four municipalities will eventually find it to their advantage to pool interests: We are of the opinion that water service furnishes common ground for a practical commencement in the co-ordination of common utility. There is no cause for undue disappointment because it was not possible to create a harmonious view immediately the project of a Greater Victoria Water Board was first mooted. These things take time 'succeeding aldermanic boards will not regard earlier pronouncements as anything like final.

And nuceeding addermant boards will not regard to the specific or the part of the part of

coast of Vancouver Island early in 1906, the Laurier Government, at the instigation of the late Hon. William Templeman, British Columbia's comprehensive programme of measures designed to aid navigation and protect life in that area. This programme included: the erection of light houses at Pachena and Lennard Island; the installation of wireless telegraph stations at Pachena, Estevan and Triangle Island; the construction of a road along the coast from Carmanah to Bamfield, with shelter huts at various convenient points; the establishment of life-saving stations at Bamfield and Ucluelet.

After the change of Government is the station of the change of Government is the saving stations at Bamfield and Ucluelet.

lightkeeper at Pachena saw the distress signals sent up from the doomed craft, but was unable to give any aid or send for assistance. He had no means of notifying the Bamfield live-saving station, a comparatively short distance away, nor could he notify Victoria, because the wireless station no longer is maintained at Pachena.

If the system of safeguards established by the Hon. William Templeman had been kept up on the west coast there is every reason to believe that the loss of life which occurred the other day would have been averted. The moral is as plain as a pikestaff. A direction finding wireless station should be installed at Pachena at once and the road between Pachena and Bamfield, where the life-saving station is, should be kept open; it could be placed under the save of telegraph could be placed under the care of telegraph

HELPING THE SETTLER.

During the course of his observations at the Immigration Conference in Ottawa yesterday Hon. Charles Stewart pointed out that the sue cess of the soldiers' settlement work had been largely attributable to the after-settlement fol

This is obviously a most important phase of an important question. It should not be necessary to coddle the new settler if he has any grit at all; but a stranger to the ways of the country, who is ready to become a good Canadian and take his part in the development of the land of his adoption, is certainly entitled to all the friendly advice and assistance that can be given to him.

Many good settlers will come to this country and expect to be made welcome. Government officials may do a good deal to aid in the realization of material prospects by the liberal distribu-tion of technical advice; but the people already here can become useful immigration agents by making a good impression upon the newcomer His verdiet of conditions goes home.

NOTE AND COMMENT

We quite agree that the sun has been a little on the loose lately, but rejoice in the fact that it has remembered our address once more.

THE RECENT ACCIDENT

To the Editor—I am sure that everyone is glad that there were no lives lost as a result of the accident to the Victoria fire wagon, and it does seem a pity that some people neglect taking the precaution which would prevent such a calamity.

The driver of the wagon, deserves credit for his actions in pulting the safety of the other people first, although by doing se he was risking his own and also the lives of his comrades. Lieut. Turner, who was badly hurt, has been a member for over twelve years and he hag a reputation for efficiency and attention to duty. There is no doubt that they all have the sympathy of the people and also their wishes for a speedy recovery from their injuries.

SAANICH REEVESHIP

To the Editor:—Mr. Waters has stated from several platforms that he does not expect to be elected Reeve of Saanich and that he will take no offence if 'you' do not vote for him.

There is, in spite of the McWilliam-Wateon caucus still a "three-cornered' contest, and I am anxious to place a warning before the workingmen of Saanich to consider who they are voting for.

Annual Meeting Was Held in Duncan

Duncan.—The annual meeting of the Cowichan Library Association was held in the Library Monday afternoon with the president, H. &. Punnett, in the chair and an attendance of about twenty-five.

The secretary's financial statement showed that moneys received had been \$168.50 for fees; \$25 from the North Cowichan Municipal Councus \$10.88, Government grant: \$15.45 from an entertainment and \$6 in fines, which, with \$89.27 in hand at the beginning of the year, made a total of \$265.10. The chief expenditures were \$120 for room and \$65 for the librarian, leaving a very small amount for the purchase of hew books.

amount for the purchase of new books.

One hundred and thirty-seven books purchased or donated were anded to the Library. The Library was open on 188 occasions, 2,616 exchanges of fiction books were made, 43 juveniles and 279 non-fiction; 16 books were lest. There are 38 members.

members. Revenue Needed.

In the president's address Mr. Punnett emphasized the need of raising the revenue or reducing the fixed charges. In order to do this he and the librarian had been discussing the question with W. Waldon, secretary of the Agriculture. Society, and a plan to establish a reading and restroom in a vacant shop in the Agricultural Hall was under consideration.

coltural Hall was under consideration.

W. Waldon, who was present, explained that, in talking the matter over with his directors they were very mitch in favor of a room where members, especially out of town persons, could have a reading and rest room. At a meeting of the Agricultural Society's directors held on Saturday Messrs, Paterson, Peterson; Neel and Waldon were appointed a committee to confer with the library committee to layout soms scheme satisfactory to both bodies.

The Library Directors elected were: C. G. Palmer, C. I. E., K. F., Duncan, M. P. P., H. R. Punnett, Mrs. C. S. -Crane and Mrs. H. D. M. rten. These will choose their own officers.

Suggestions offered at the meeting were that a sub-committee should be considered.

were that a sub-committee should be appointed to help with the care of the books, cataloguing, entertain-ments and schemes for increasing

the funds, and that arrangements should be made if possible for the drawing together of adjacent libraries, particularly schools, and pooling grants.

If in their previous visit the "Bing Boys" were funny, they are going to be funnier still in this new revue of Mr. Hinck's. There is music and laughter, and then more music and more laughter. One of the characters is Pep, and this name aptly describes the whole show.

The songs, a combination of modern and eastern, with many a side-splitting parody, will be themselves an evening's entertainment, and the dialogue is some of the most brilliant of Mr. Hincks work.

Altogether present indications are that the "Bing Boys in Baghdad" will be the brightest, jolliest, wittiest and most musical of any the Playhouse efforts.

"UNDER TWO FLAGS" TO BE SCREENED AT ROYAL VICTORIA

The color of old Algiers, its massive but dilapidated barracks, its quaint alleys and its queer charac-ers, are incorporated in the immortal story of Cigarette, "Under Two Flags," written by Ouida several de-cades ago, and seen on the stage or read by most of the world since then.

"Tanlac relieved me of a bad case of stomach trouble, and built me up several pounds in weight, besides," declared Mrs. Sarah Alice Crossley, a highly esteemed resident of 436 Campbell Avenue., Vancouver, B. C., recently.

"For over a year before I took Tanlac, nearly everything I ate gave me trouble. I had almost no appetite but the little I did eat source on my stomach and caused terrible suffering from gastritis, bloating, heartburn, eructions and smothering sensations. I suffered so badly some nights that I couldn't sleep at all and my food gave me such little nourishment I lost weight and became awfully weak and run-down. I just felt miserable all the time.

"Tanlac has done me such a world of good that I am perfectly delighted with it. My digestion, is splendid now. I am eating anything and everything I want, and feeling as strong and well as I ever did. Tanlac is a grand medicine and I shall always praise it."

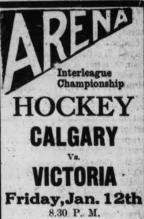

Tanlac is for sale by all good druggists. Over 35 million bottles sold.

Miss Dauphinee, psychologist to the Vancouver City Schools, will be the speaker at Tuesday's meeting of the Women's Canadian Club at the Empress Hotel. Miss Dauphinee will speak on the subject "The Case for the Sub-normal Child."

The interest created in the past few years in the problem of the sub-normal child and its relation to delinquency has led to a study of the question by many women's organizations, and Miss Dauphinee's address should be of more than the usual interest. She is a finished speaker and an expert psychologist and it is anticipated that there will be a large turn-out of members for the occasion.

"I mean, messieurs." Andre-Louis Insisted, between fear for his friend and indignation, "that it is not his habit, to wear a sword, that he has never worn one, that he is a seninarist—a postulant for holy orders, olready half a priest, and so foibidden from such an engagement as you propose."

"All that he should have remembered before he struck a blow," said M. de Chabrillane, politely.

"The blow was deliberately provoked," raged Andre-Louis. Then he recovery chimself, though the other's baughy stare had no part in that recovery. "Oh, my God, I talk in vain! How is one to argue against a purpose formed! Come away. Philippe, Don't you see the trap..."

M. de Vilmorin cut him short, and flung him off. "Be quiet, Andre. M. le Marquis is entirely in the right."
"M. de Marquis in the right."
"An der-Louis let his arms fall help-lessly. This man he loved above all other living men was caught in the snare of the world's insanity. He was baring his breast to the knife for the sake of a vague, distorted sense of honor due to himself.

Within a few minutes, all arrange-gents were concluded and that sin-isterly intentioned little group of four assembled in the afternoon sunshine on the bowling-green behind the inn. There were no formalities over measurements of blades or selection of ground. M. le Marquis remoyed his sword-belt and scabbard, but decilined—not considering it worth while for the sake of so neligible an opponent—to divest himself either.

Tall, lithe, and athletic, he stood to face the no less tall, but very frail and delicate, and athletic, he stood to face the no less tall, but very frail and delicate, M. de Vilmorin. The latter also disdained to make any of the usual preparations.

M. de Chabrillane, leaning upon a cane—for he had relinquished his sword to M. de Vilmorin—looked on with quiet interest. Facing him on the other side of the combatants stood Andre-Louis, the palest of the four. staring from fevered eyes, twisting and untwisting clammy hands.

He clung to the conviction that the issue could not really be very serious. If the obligations of Phillippe's honor compelied him to cross swords with the man he had struck, M. de la Tour d'Azyr's birth compelled him no less to do no serious nutre to the unfledged lad he had so grievously provoked. M. le Marquis, after all, was a man of honor. The encounter was very short, of course. In youth, Philippe had received the tutoring in sword-play that was given to every boy born into his station in life. And so he knew at least the rudiments of what was now expected of him. But what could rudiments avail him here? Three disengages completed the except had been moist turf, his long, graceful hold westendire.

Andre-Louis sprang forward just in time to catch his friend's body under the armpits as it sank.

With white face and twitching lips, Andre-Louis looked up at M. de La Tour d'Asyr, who stood surveying his work with a countenance of grave but remorseless interest.

"You have killed him!" cried Andre-Louis.

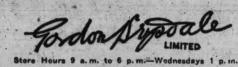

"Of course."

The Marquis ran a lace handker-chief along his blade to wipe it. As hel let the dainty fabric fall, he explained himself. "He had, as I told him, a too dangerous gift of eloquence."

WEST INDIES RUN

Ship in Trans-Pacific Will **Operate With Mattawa** and Montezuma

A record for quickest time between Demerara and Canada was made by SS. Montezuma, which arrived St. John on Priday, January 5. left Demerara on the evening of ember 24, stopping at Barbados

December 24, stopping at Barbados on route to St. John.

In view of the continued trade expansion between Canada and some of the principal ports of the West Indies it is announced that the Canadian Pacific cargo steamship Methven will be transferred within a few months to the West Indies service. The Methven, together with the Mattawa and Montezuma, at present in regular service between Canada and Barbadoes, will then provide a regular fortnightly service of value to Canadian exports and importers. The Canadian Pacific service is of importance in its relation to Canadian trade with the West Indies, as it proyides regular and frequent sailrings which are indispensable to Canadian trade with the West Indies, as it proyides regular and frequent sailrings which are indispensable to Canadian trade with the West Indies, as it proyides regular and frequent sailrings which are indispensable to Canadian trade with the West Indies and States and other countries.

The Methven, Mattawa and Montezuma have accommodation for a limited number of passengers offering a delightful holiday trip of a month, combined with an opportunity for Canadian business men to visit the markets of the West Indies and enter into direct personal relations with the local merchants. Perhaps in no other part of the world does the personal relation count for so much in business.

The cargoes carried to the West Indies and enter into direct personal relations will be to the Canadian pactific steamships consist principally of Canadian potatoes, codfish, newsprint, beer, flour, packing-house products, butter, chees and hay. On their return trips full cargoes of sugar, to-bacco, cigars and grapefruit, oranges, bananas, cocoanuts, picher, the part of the world does the personal relation count for so much in business.

MAKING CRUISES

Liner Empress of Britain Will Leave New York on January 20

The first of the two cruises de luxe to the West Indies, the treasure islands of the Spanish Main, Panama and Venezuela, to be made by the Empress of Britain will start from New York on January 20.

The Empress of Britain is devoted entirely to the purposes of the cruises and no cargo is carried. In addition to the comforts to be found usually at only the best hotel ashore, the food and service is of Canadian Pacific standard. The passenger accommodation is most attractive and not more than two passengers are booked in a room unless it is desired to accommodate a family party. Those who desire to travel alone will find a good proportion of single cabins. The rooms and cabins are fitted with electric fans, insuring perfect comfort at all times. Other attractions include a gymnasium swimning pool, verandah cafes and large decks for games and dancing. An find a good proportion of single cabins. An

augmented professional orchestra for concerts and dancing.

The itinerary for the first cruise starting from New York on January 20, includes the following ports of call; Havana, Cuba; Port Antonio, Jamaica; Kingston, Jamaica; Colon, Panama; La Guayra, Venezuela; Port of Spain, Trinidad; Bridgetown, B; os; Port of France, Martinique; St. Pierre, Martinique; San Juan, Porto Rico; Nassau, Bahamas, returning to New York, covering a distance of over six thousand miles during the twenty-seven days of the cruise. The second cruise will start from New York on February 20 and will be similar to the schedule for the first cruise. Hamilton, Bermuda, being substituted for Nassau, Bahamas, as the final port of call.

There are excursions ashore at the various ports, conducted by representatives of the Canadian Pacific, allowing unusual opportunities for visiting every possible point of interest during each cruise. Two days will be spent ashore at Havana and two days in Jamaica, including trips to many nearby points. An additional day is provided this year at Panama and a journey will be made from Colon through the Culebra Cut to Pedro Venezuela.

WILL TAKE EVIDENCE ON SOPHIA WRECK

Testimony of relatives of those lost in the Princess Sophia disaster, which occurred at Vanderbilt Reef, October, 1918, will be Alaska, in October, 1918, will be taken on January 19 by A. C. Bowman, who is gathering evidence to assess damages. The local claimants will be heard at the office of P. J. Sinnott, barrister, 402 B. C. Permanent Loan Building.

The question of liability of the owners of the Sophia is still before the United States courts.

SECURES VESSELS

Seattle, Jan. 12.—Two big freighters, the Charles H. Cramp and Henry S. Grove, which formerly operated to Seattle in the intercoastal service of the Atlantic Gulf and Pacific Steamship Corporation, again will be routed to the North Pacific in the intercoastal trade, according to advices received in Seattle.

The vessels have been acquired by the Argonaut Line, a recent entry into the coast-to-coast service. The two freighters are Shipping Board carriers built during the war. With the acquisition of the Charles H. Cramp and Henry S. Grove, five vessels have been definitely assigned to the Argonaut Line for the intercoastal trade.

OCEAN AND COASTWISE SHIPPING NEWS

Record Shipment of Apples to Be Shipped on Blue Star Refrigerator Ship

Seattle, Jan. 12,—In the service of the Blue Star Line the refrigerator steamship Royal Star, Captain G. B. Hall, is here on her first visit to this port. She came from London via the Panama Canal in ballast, and will load apples, canned goods and frozen fish here. Apples to be taken at Vancouver, B. C., and Portland, are expected to make the largest shipment of this fruit taken from the Pacific Coast this season.

O. H. Eisenbeis, Seattle agent for the McCormick Steamship Company, named Pacific Coast managers for the new intercoastal service of the Garland Steamship Company, is to leave Monday for San Francisco to confer with A. P. Hammond, general manager of intercoastal lines for the McCormick interests.

All the licensed deck officers at this port are to meet Sunday after-noon to consider merging their or-ganizations into one.

Ruling of the Shipping Board that all freight originating in American territory must be taken to Alaska in American bottoms, caused announcement to-day by the Alaska Steamship Company that the steamship Jefferson, which is leaving here to-day, will call at Hyder. It has been the custom for goods destined to Hyder to be taken there in Canadian vessels via Stewart, B. C., which is just across the boundary line from the Alaskan community.

The Santa Cruz which returned here from Tacoma, is expected to finish loading to-day for the West Coast of South America.

The in and outbound tomage report as compiled by the State board of harbor commissioners shows a decline of \$3,412 tons over the figures of last week. The week's tomage showed inbound \$1,547 tons, outbound 40,417 with a total of 109,894 tons against 193,106 tons last week.

The Cadwallader Gibson Company has protested to the State board of harbor commissioners against the extension of a period of sixty days of the five-day time limit for the removal of foreign cargoes from the docks. The company claims it is unable to clear its consignments in that time.

GRAY UTILIZED AS UKE CARRIER BETWEEN STEWART AND TACOMA

The steamer Gray, Capt. W. Billington, of the Consolidated Whaling Corporation. Ltd., is back at her berth at Point Ellice after making a trip from Stewart to Tacoma with ore from the Premier Mine.

There is a possibility, it was stated at the company's offices to-day, that the Gray may make another trip with ore from Stewart to the Tacoma smeiter.

The Gray is the tender operated by the company in carrying supplies and products during the whaling sea-son on the British Columbia coast.

GLORY OF THE SEAS MAY YET MEET IGNOBLE END

The Glory of the Seas was built in 1869 and holds more than a score

of sailing records, according to shipping men here.

The vessel was later converted to a barge and floating fish ware-house. Reprieved by a telegraphic request from Boston as she was being towed to a sandy beach near here for destruction a few weeks ago, the Glory of the Seas was beached awaiting further word from the East coast men. It was not forthcoming.

It will include all trans-Pacific lines excepting the Suzuki, Mitzuisand Y. K. K. Ships. During the past few days the rates committee has been working entirely on overland rates, with a view to equalising with the New York conference rates. There are certain commodities that can not be affected by this tariff, as there are some that the West Coast ships can handle without competition from the Far East ships out of New York and other Atlantic ports, and there are some that the New York Conference ships can handle without competition from the West Coast. But in such commodities where competition is possible, the rates are being adjusted to make the competition equal. There will be few changes and fewer interested by J. A. Few changes are anticipated. Fresent tariffs will be but equalized and stabilized. It is possible, however, that within a month the Conference may increase the freights to some extent.

The time for the reception of tenders for the supplying and installation of pumping machinery at the new Government drydock at Skinner's Cove, Esquimalt, has been again extended. Tenders on this work will now be accepted by the Public Works Department at Ottawa up to February 15.

MOTORSHIP CUBA IN NEW SERVICE

"New Electric Line" Inaugurating Passenger and Freight Route

San Francisco, Jan. 12. A new coastwise passenger and freight ship service between San Francisco and Portland to be known as "The Electria Line," will begin when the motorship Cuba leaves San Francisco on January 30. The return trip will be made on February 3 from Portland. The service will be in charge of John W. Chapman of San Fran-

cisco.

The Cuba is now en route from New York to San Francisco and is scheduled to pass through the Panama Canal on next Sunday. The Cuba is said by company officials here to be the first electrically driven passenger liner afloat, and will accommodate 250 first class passengers and 800 tons of freight.

WINTER TOURISTS TO BE GUESTS

During the months of January, February and March, a series of en-tertainments for the special benefit of Winter tourists will be staged in the new Chamber of Commerce Au-ditorium, Arcade Building, every Monday evening, commencing at 8.30 p.m.

Monday evening, commencing at 8.30 p.m.

Invitations are also being extended to new-comers who have decided to make their homes in Victoria, in order that they may make new acquaintances and perhaps have the pleasure of meeting visitors from their previous home town.

It is expected that these social evenings will meet with marked success, as the Rotary. Kiwanis. One Hundred Per Cent, Gyro and Kumtuks Clubs, who have kindly offered their assistance, to the Tourist Trade Group of the Chamber of Commerce, are devoting considerable time to the preparation of the programmes.

Harold Palmer, of the Chamber of Commerce, has charge of the invitations. Refreshments will be served.

had previously elected trial by jury.

The installation of the elected and appointed officers for the ensuing term will take place this evening in the I. O. O. F. Hall, Douglas Street, when Carne Rebekah Lodge, No. 45 meets. The District Deputy President, Sis. T. Grant, assisted by past officers, will officiate. A banquet will be held at the close of the ceremony.

That joy riders were as active in the city as ever was reported to the city police to-day from several sources. Three cars were stolen in the last two days, and two of these have been recovered. In one case the stolen car had been driven 25 miles, and was found with the "cut out" open, proving that noise and speed were the accompaniment of the midnight party.

The services conducted in connection with the week of prayer movement at the First Presbyterian. Church continue to be well-attended by enthusiastic congregations. Last night, the Rev. J. W. Saunby presided and an illuminating address was given by the Rev. Mr. Redman of the Douglas Street Baptist Church. To-night an address will be given by the Rev. J. H. Whyte of St. Columba Presbyterian Church, Oak Bay.

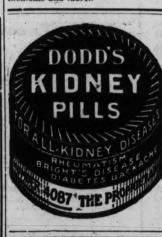

Presbyterian Church, Oak Bay.

In a short session of the City Police Court to-day Jim Lee, charged with being in possession of paraphernalia used for the smoking of opium was convicted and fined \$25 and costs. Lim Nam, charged with the assault of a fellow Chinaman named Tony Jack was convicted and fined \$20 and costs. Tony Jack gave a graphic account of how the accused had bludgeoned him with a broom, and bit him on the knuckles of the right hand. Lim Nam countered that the fight was because the complainant had stolen his scarf, he alleged. The court discovered the cause of the dispute was a suit of the recovery of money in the small debts court, and

Class-room and Athletic Ac- City's Levy Will Replace It: tivities Keep Arts Students Busy

The Victoria College has just completed a very successful year both in regard to class room activities and those of a social or athletic nature. Student and professors alike express entire satisfaction with the results of the late examinations. Several of the students have made a very excellent showing, and in one instance in particular, an almost unprecedented achievement, one of the young ladies of the second year, Miss Lucas, handed in a hundred per cent. Latin paper: Such a mark is not unusual in mathemtics, but in languages it is most extraordinary. Miss Lucas, marks in all her other languages were almost as high. There were many exceptionally bigh averages reached. Regarding the social activities of the Students' Council, R. Mathews, announced to the students of the different entertainments and lectures. The Literary Society has been making, rapid strides towards a successful culmination of its activities. The social committee has done excellent work, and all organizations have been very light upon the financial resources of the institution.

The ladies' basketball team has roved very able in its games this cason. The ladies were crowned rith laurels at their last match with the Vancouver, the 'Varsity, and have seen doing well all through the year. The men have not been so successful, although they have made an extellent showing, considering their weight. The rugby fifteen is going shead at a sufficiently good pace, id has hopes of doing battle soon with the U.B.C. boys. They will first campaign amonast their nearer rivals in this city, including the Oak Bay and Victoria High Schools, the University Military School and the Normal School. They are gettingdown to training again immediately.

Saanich Election

In response to many inquiries I am receiving from Victoria residents who own property in Ward One. Saanich, for which Ward I am now standing as candidate for Councilor at to-morrow's election, I beg to say that I am a large property owner in the Ward and am resident there with my family, and am naturally interested in an intelligent, economic, and business-like administration of public affairs. Without making any specific promise as to any particular matter of public interest, I pledge myself, if elected, to work faithfully for what appears to me to be in the interest of all the people of the Municipality, and for the honest and economic administration of public affairs.

Speakers to Explain Scheme to Organizations Here

The campaign in support of the new intermunicipal water scheme will be launched next Monday at the weekly luncheon for the Gyro Club, when speakers from the Greater Victoria Committee will be heard.

Speakers will also appear before the Rotary Club, Kiwanis Club, One Hundred Per cent Club and Chamber of Commerce, on subsequent dates to be named. An important meeting has been arranged to take place at St. Mark's Hall, on Wednesday, January 17, at the invitation of the Saanich Central Ratepayers' Association.

Saanich Central Ratepayers' Association.

Members of the Greater Victoria Committee stated to-day they wish to make it perfectly clear that the issue to be voted on at the plebiscite on February 10 is not the Greater Victoria scheme, calling for an amalgamation of the adjoining municipalities with the city, but simply the creation of a water board for Greater Victoria. Under this plan the district would utilize to its own advantage the water powers which it has by the formation of a joint control board.

Word was received this morning that the Lieutenant-Governor-in-Council has approved of the date of February 10, for the taking of the plebiscite on the Water Act issue.

Weather Has Moderated and Seach for Alaskan Victims Will Be Continued

Now that the weather has moderated on the West Coast it is expected that a thorough search will be made to locate any bodies that may have been washed up from the wreck of the steamer Alaskan.

Only one body has been located so far, and this was buried at the scene. The body was identified as that of B. Brown, skip's cook as discharge papears were found indicating that the unfortunate man had served on the steam whaler Black.

Brown's relatives state that he never served on the Black, and that he had light hair, and not black, as stated.

Calgary Will Seek The Cougars' Hide

Tigers Arrive For Important Hockey Engagement At Arena To-night; Both Teams In Top Form For Game Which Is to Exceed In Thrills Anything That Has Been Seen Here In Past; Meeking Will Be In Line-Up.

Lloyd Turner brought his pack of hungry Tigers into town this afternoon and he hopes to appease the ravenish appetite of his hirelings with the hide of the Cougars.

Calgary is anxious to repeat the performance of Regina during its swing around the Coast loop. The Capitals were beaten in their opening clash, Vancouver administering a 10-3 defeat, but the visitors came right back, beat Seattle in an overtime battle and then bested Victoria in a close game. If the Tigers are to go home with two wins they will have to start in to-night, clip the Cougars claws and wind up with a victory over Vancouver on Monday

The Tigers had some trouble get-ting going in Seattle on Wednesday night and by the time they got used to conditions Happy Holmes, the Mets' goalle, had barred the gates to his cage and refused to let the visi-tors get by,

Expect Different Story.

"We expect that things will be different to-night." commented Manager Turner. "We are going to start at the first whistle and keep plugging until we have the Cougars in submission. We have heard a lot about this Victoria club, its speed and twoman rushes but we have a stout defence and a good back-checking line. The boys are all in good shape and the few days on the Coast has helped them to adjust themselyes."

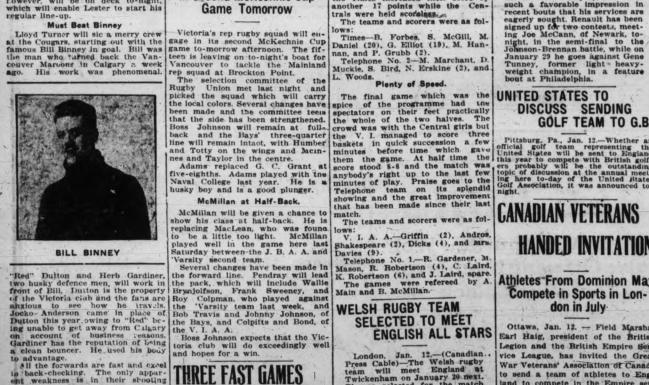

It is one thing to talk about fighting the Cougars into submission, but it is an entirely different thing to get out and do it. The Coast League teams of late have found Lester Patrick's boys the next toughest thing to a beef steak. The Cougars are all going hard and intend to get an early drop on the visitors if possible.

Worked Out Yesterday

Worked Out Yesterday

The Cougars held a workout yesterday and they were going at a lively clip. Wilf Loughlin in particular was tearing through, and his shooting, which was dead on, fooled Fowler every time.

Harry Meeking was among those present at the practice yesterday. He did not take things seriously. His wrists are still giving him considerable trouble and every time he lifts his stick he winces with pain. Harry, however, will be on deck to-night, which will enable Lester to start his regular, line, up.

All the forwards are fast and excel in back-checking. The only apparent weakness is in their shooting ability.

Another prominent player with Calgary is Bobby Benson, who helped cickson win the world's hockey championship for Canada at the Olympic Games in 1920. Benson is a chunky youngster who functions on either the defence or the line.

One of the biggest houses that has witnessed a game this year will be on hand to-night. The game should he a battle all the way.

Lester Patrick refuses to comment on the outcomes.

"All I know is that it will be a battle all the way," said Lester this morning. "We have wholesome respect for the Calgary squad, and I'll feel a lot better if we can put this game in our win column."

The two Anderson boys had a faming like his afternoon. Locke is an brother of Ernic, of the Calgary team. This is Ernie's thigh tirp to the Coast. He came out with the Selkirks a few years ago and last season was with the Regina Capitals when they defeated Vancouver.

Brennan Is Favored to Win Over

Floyd Johnson in To-night's Bout

New York, Jan. 12.—Bill Brennan, the perennial stalking horse of young men aspiring to a championship match with Jack Dempsey, king of the heavyweights, has been installed the favorite by a wide margin over Floyd Johnson, of Iowa, for their fifteen-round match at Madison Square Garden to-night.

Brennan is regarded in better shape than he was for some of his mor Brennan is regarded in better shape than he was for some of his more amous bouts, and Johnson, notwithstanding his pink-hued-condition, was spoken of as having been brought along too fast since he emerged from the West. The Iowan has finished training with his three giant partners and expects to weigh about 193 pounds when he enters the ring.

Johnson has been brought along by Jack Dempsey. If he beats Brennan he will get a chance at the champion.

Minor Head Rakes Landis Over Coals

President McCarthy, of Pacific Coast League, Says Agreement Between Major and Minor Ball Leagues Only a "Scrap of Paper;" Claims Landis Lacks Courage and Has Made Only "Vacuum Promises;" Break Expected; Other Leagues Back Up McCarthy

San Francisco, Jan. 12.—The agreement between the major and minor baseball leagues restricting the drafting of players, was characterized yesterday by William H. McCarthy, president of the Pacific Coast League, as "a scrap of paper," as a result of a recent pact between the majors, which, according to McCarthy, extends the drafting privilege beyond the scope of the major-minor agreement. McCarthy based his statement yesterday upon a telegraphed interpretation of the majors' pact from Kensaw M. Landis, high commissioner of baseball, and Commissioner Landis's decision that the majors were justified in making such a pact.

The mines leagues of this country, approximately twenty-five, have been humbugged, deluded, deceived and cheated by the two major leagues," the statement said. "And the pity of it is that this has been done with the knowledge, consent and approval of the new Moses, the high commissioner, who was to lead professional baseball into a new Land of Promise."

"Promises, yes. That is what the minor leagues have been fed."

One of His Promises.

At Louisville Commissioner Landis brought the convention of minor leagues cheering to its feet with the statement that, draft or no draft, the major-minor agreement would be lived up to the letter until 1927, the year when he is supposed to retire. "Less than a month later he rendered-this-decision absolutely nullifying the major-minor agreement. "Promises—but vaceum promises—and Belasco poses are all that the minor leagues are to receive. "The man whose proudest boast and claim to fame was that he had fined the Standard Oil Company \$29,000,000 was not big enough nor courageous enough to tell his over-fed and over-prosperous employers that a contract is a contract londing upon—both parties, and that they would have to live up to their part of it.

The Difference. One of His Promises.

The Difference.

The Difference.

"When a ball player, anxious perhaps, for an increase in salary, refuses to sign his contract, he is banned for five years from professional baseball, exiled and ostracized and held up to scorn as a contract breaker. That is so easy. It is only the ball player's bread—and butter that is concerned.

"But when the men who make the ball player a contract jumper break their contract; when their dollars, not their bread and butter are not threatened—well it's just a little bit different. They are judged by'a different code. They are commended when the ball player is condemned.

"And quoting the distinguished jurist-commissioner:

And the from a thing that can's itself a soprt."

A Hot Finale.

After explaining the major league agreements which brought about the alleged breaching of the pact with the leagues, of lower classification McCarthy continues:

"And the more regrettable it is that the man who held the respect and admiration of the minor leagues and of the country, who enjoyed as no other man their confidence—the pity and the shame of it is that Kenesaw M. Landis could lend himself to this. Never could any one have suffered a keener disappointment than I have met. I fought for him, looked to him, followed him. But I cannot follow him to dishonor."

"That's enough, he said. "I'm not interested."

"Do you care to make a reply?" he was asked.

"Oh, no. It's not worth while, Much obliged for calling. Goodbye."

"Will you have a statement tomorrow?"

"No, never. Good-bye."

Refused Players.

Baltimore, Md., Jan. 12.—In a circular letter, a copy of which was received to-day by Jack Dunn, president of the Baltimore Baseball Club, President J. C. Toole, of the International League, yesterday notified his owners not to accept any players from the major leagues who are subject to draft. Should the majors insist upon carrying out their recent rule in this matter, Dunn believes, Toole's decision will mean a breaking off of relations.

New York, Jan. 12.—An offer of £50,000, about \$250,000, to meet Joe Beckett, in London, June 4, was received yesterday for Jack Dempsey, world's heavyweight champion, by Dan McKetrick, his eastern manager, from George McDonald, English promoter, representing Capt. Goulding, a British sportsman.

McKetrick said Dempsey could meet Beckett and return to the U. S. in time to meet Jess Williard for another championship bout on July 4, provided he defeated Beckett.

War Clouds Gather
Chicago, Jan. 12—War clouds gathered over the camp of the minor leagues threatened to-day to crystallize into immediate action on the part of their presidents against the major leagues, with its first drive centering in Chicago.

The trouble began when major leagues announced a plan to retain draft powers on players farmed out in alleged violation of the majorminor "assignment of players agreement."

Increase in the optional player limit from eight to fifteen caused a storm of protest from the minor league presidents.

With all the anti-draft group of the minors—the American Association. International League, Pacific Coast, Western and Three-I. Leagues—presenting a solid front against the majors, it appeared probable to-day that business relations between the two groups might be severed unless a common ground of understanding was reached.

There was great excitement at the bowling alleys yesterday evening, when the Wilcox Hatters met Weller's, practically every bowler in town being present to see the fray. They were repaid for their attendance, for the match proved a highly interesting one and resulted in the Hatters being at last compelled to suffer their first defeat since the league series started. Weller's won by 25 pins.

The teams are now tied in first place, each having suffered one defeat. The scores:

less Works Out Before Critics in New York, Making Good

New York, Jan. 12.—Jess Willard, here seeking a return match for the heavyweight boxing title with Jack Dempsey, yesterday convinced a majority of critics who watched him go through a little gymnasium workout that, despite his 260 pounds, he is in good condition and able to get down to fighting trim again with proper training.

to fighting trim again with proper training.

Donning his ring togs, the former titleholder shadow boxed, skipped rope and performed other light exer-cises for about a half hour before an interested gathering. He plans to continue similar workouts while he is in New York awaiting final word on negotiations which may reach a definite basis when Dempsey's man-ager, Jack Kearns, arrives here, probably next week.

Willard Best Man.

Willard is the best man available

"Willard is the best man available to-day as an opponent for Dempsey." Promoter Tex Rickard declared. "He is in better condition right now than he was a month before the bout with Dempsey at Toledo in which he lost Dempsey at Toledo in which he lost his title.

The first intimation of financial terms Willard desires for a bout with Dempsey was revealed in an annoucement. by Tom O'Rourke. Polo Grounds matchmaker, that Jess asked \$50,000 with a percentage privilege, for his share if O'Rourke is successful in bidding for the-contest.

Ex-Constable Andrews, Esquimalt, Says North Used Name Without Authority

Name Without Authority

Written denial that he was the informant for the statements alleged to have been made by ex-commission Joseph North at the Royal Victoria Theatre on December 7 last in connection with what has become known as the "Carlisle incident" was received by the Eaguimalt Board of Police Commissioners yesterday afternoon from ex-constable John Andrews.

Mr. Andrews letter follows in part: "It absolutely deny ever giving Joe North any authority or evidence or any signed statement regarding the Carlisle incident. Furthermore I beg to state a few days before the meetings he (North) telephoned me up, and offered me \$100 if I would make a statement in writing. This I promptly refused to do and told him not to use my name in any way whatever."

The letter continues to state that the writer did not ignore the summons to appear before the commission, as the summons had no date for such appearance, otherwise he would have been in attendance.

Ex-constable John Andrews was summoned in blank to appear before the Police Commission in Esquimalt to give evidence in relation to the charges made against Chief of Police Herbert Dawley in regard to the incident when it was said the Chief fired four shots into the side of the gasoline tank of a motor car driven by Warren Carlisle while that vehicle was speeding up the road in the dark after its driver had refused to halt. Mr. North alleged collusion; but the commission exonerated Chief Dawley and complimented him on his hearing in the matter.

Perkins (sympathizing with Henpeck): "But why did you propose to

fused her!"
Henpeck: "I couldn't. She said,
"Will you marry me? Have you any
objection?" So whether I said yes'
or 'no' she had me either way."
Perkins: "Well, you shouldn't have
answered her!"
Henpeck: "I didn't, so she said,
'Silence gives consent,' and that settied it!"

CROUP YIELDS TO TREATMENT WITH **VAPORIZING SALVE**

Canada Mothers Are Delighted With a New Discovery That Avoids Unpleasant Dosing

REPORTS OF TESTS IN 15,000 CANADA HOMES

Victoria mothers who are nightly haunted by fears of croup surely will be interested in reports of the tests of Vicks VapoRub made last Winter in 15,000 Ontario and Quebec homes. Vicks is the famous external treatment for colds, recently imported here from the States, where over 70 million Jars of it were used in the last four years.

Each druggist in eight big cities of Ontario and Quebec gave out to twelve of his customers a full sized Jar of Vicks, to be tried—on the sole condition that the recipient would report the results of its use.

Specimens of these reports are printed below. They tell of fine results in croup and other cold troubles.

Has a Direct Double Action.

Vicks is a vaporizing, rubbing saive, the invention of an obsecure druggist of a little town of North Carolina, U. S. A. He discovered how to combine Menthol, Camphor, Eucalyptus, Thym and Turpentine, in such a way that when the preparation is rubbed on over throat and chest not only does if penetrate through and stimulate the skin, but at the same time the action of the body heat vaporizes the inspredients and their medicated vapors are inhaled with each breath, directly into the affected air passages.

For Spasmodic croup, you just rub Vicks well over throat and chest until the difficult breathing is relieved, then cover with a warm flannel cloth, Relief should come within 15 minutes, One application at bedtime will prevent most night attacks.

For common colds, sore throat and bronchitis, rub Vicks on, cover with a hot, flannel cloth, leaving clothing or bedcoverings loose about the neck so that the medicated vapors arising may be freely inhaled.

For deep chest colds, or threatened pneumonia, apply hot, wet towels to open the skin pores and then use Vicks.

For catarrh, asthma and head For catarrh.

Rev. Clem Davies Addresses Annual Meeting of British-American League

Refrain from saying disagreeable things about each other and try rather to appreciate each other's rather to appreciate each other's good points, was the advice given to Great Britain and the United States by Rev. Dr. Clem, Davies, of the Centenial Methodist Church, in an address which he delivered at the annual meeting of the British-American League last night. Dr. Davies, though a British subject, has spent ten years in the United States, and is therefore in a position to appreciate the good points of both peoples. The aim of the League is to bring about greater harmony between the two section of the English-speaking nations, and the address of Dr. Davies was a contribution to this end.

Septhing Cauldron.

He compared the United States to

was a contribution to this end.

Segthing Cauldron.

He compared the United States to a growing boy who wants what he wants and wants it right away, but whose feelings and opinions are liable to audden shifts. The United States was an immense seething cauldron, rather than a melting pot, and was trying to bring homogeneity out of an immense seething mass.

As to the history of the two countries, the story of each contained things that might be better forgotten. Each had things in its record of which it had reason to be ashamed. There was an inherent feeling of suspicion and lack of harmony. The breeders of discord ought to be suppressed. The thing to do was to give the children on both sides a proper historical view. Not much could be done towards changing the set convictions of adults. The breeders of discord and strife, such as Bottomley in England and Borah in the United States, must be suppressed. Foolish persons, such as those who went around declaring that the United States won the war, ought to be suppressed. He assured his bearers that the sensible people across the line did not believe such nonsense.

The Hearst Influence.

The Hearst Influence.
Dr. Davies also referred to the influence that might be exercised by the press in the cultivation of international good will, or otherwise, and declared that the editor who would deliberately stir up ill-will ought to be shot.

clared that the editor who would deliberately stir up ill-will ought to be shot.

The thing to do was to come to an agreement on the big things, and not to place emphasis on the little things on which there was disagreement. The world was standing on the threshold of a new era in which a new faith and new optimism were needed. The harvest of hate had been reaped by the present generation: It was time that, the era of good will should be introduced.

The retiring president, Major W. S. Shaw, said that four successful meetings addressed by outside speakers, had been held during the year. A branch had been formed in Vancouver-which was doing good work. Among those who had given active support to the League, he mentioned Bishop MacDonald, D. O. Cameron and United States Consul Mosher.

The financial statement showed receipts \$192.69 and expenditures 173.09, leaving a balance on hand of \$19.59, as against which there were outstanding accounts of \$71.51.

A general discussion took place as to the programme for the coming year. Some of the members expressed a desire for a series of talks on the great literary personages common to the two nations. The idea was also advanced that steps might be taken to have the ideas of the League placed directly before teachers and pupils in the schools, as a means of cultivating good will.

During the eventual services were elected for the current year:

pneumonia, apply hot, wet towels to open the skin pores and then use Vicks.

For catarrh, asthma and head colds, you melt a little Vicks in a spoon and inhale the vapors. Also, insert some in the nostrils and snuff it well back.

For cuts, burns, stings and other skin inflammations or congestions, apply Vicks as a salve.

Child Has Double Attack.

Mrs. F. Harper, of 273 Grey St., London, Ont., says: "A few days ago my little boy, three and one-half years old, had first bronchitis when croup, so I thought it a good chance to try Vicks VapoRub. I used it exactly as your directions said and the treatment seemed to relieve him greatly. I think the treatment is splendid."

Mr. Keeling, of 1108 Newmarket St., Verdun, Montreal, says: "I found Vicks very good for colds on the chest, My boy suffers with a croupy cough and I rub his chest well with it and I get very good results. It is also good for colds in the head."

Mrs. H. Mulholland, of Grandview, Brantford, Ont., writes us: "We tried your Vicks VapoRub for sore throat and colds and found it extended to read the work of the

TO JOIN IN PROTEST AGAINST SALES TAX

Victoria Merchants Will Help Send Delegation to Ottawa

Victoria retail merchants will join with those of Vancouver and other parts of the Province in sending delegates to Ottawa to carry on the fight against the sales tax. It is believed that better results may be obtained by such direct presentation of the situation.

ARCHITECT FOX

Materials and Labor 30 Per Cent. Higher on Residences Than 1912

tect, told the Real Estate Board here the small residences in Victoria those residences 'not unduly equipped with heat and plumbing equipment of hardwood fittings,' is 30 per cent. more than in 1912.

The commercial buildings of the store class, built under class "B"

ly to-day than in 1912.

Practical Experience.

To support his argument on site values, Mr. Fox pointed out that the Woolsworth Building site was valued in 1912 at \$250,000, while the sale price last year was at a figure of \$140,000, upon which improvements to the value of \$100,000 were added, or in other words the present building and site is less valuable than the 1912 figure. Another property he quoted was sold at \$10,000 plus \$2\$,-000 improvements, as against a value of \$60,000 in 1912.

Mr. Fox traced the relation of interest rates, pointing out that the rate of mortagage interest "is usually one per cent, more interest than charged by the banks," and that while the bank interest was advanced during the war, there had not been a reduction in interest by the banks, while every other commodity had been reduced. The local situation, however, is that the banks are spending considerable sums of money in improvements, thus giving the first impetus to buildings in 1923.

More Hopeful.

More Hopeful.

Mr. Fox went on to show that the general situation in British Columbia should encourage people to build and then proceeded to consider the relation of taxation to the cost of building. He expressed the opinion that "so long as we have a system whereby a mortgagee in the event of default of the mortgage is faced with the position that his security is imperishable and liable to confiscation by the city, so long will it be difficult to negotiate for building purposes, and without these loans you cannot have real building progress."

He gave the following advice in conclusion "To you who control the properties of this city I would say make all needed improvements and repairs, do not wait for lower building costs, they are not in sight; but rest assured that if you will make wise expenditure the employment thus created will establish confidence and make a pay roll. Money will circulate, and I feel sure-we will gain out full share of the coming prosperity in the West."

Mr. Fox was heartly thanked.

PLAN TO MPROVE METCHOSIN HALL

Special to The Times

Metchosin—The annual meeting of residents of Metchosin to receive the report of the hall committee and to elect the committee for 1923 was held on Monday night in the hall. The chair was taken by H. G. Pierce, and the meeting proceeded to discuss the business of the evening. Usual pre-timinaries, reading of minutes, etc., were disposed of, the financial statement showing a balance in hand of \$42.72 in the general fund, haf of which, according to the by-laws, must be placed in the maintenance fund making the balance in hand of that particular fund \$109.25.

A discussion arose regarding the high charges for campaign and tollifical meetings—and on motion it was an analysis of this week. There were eight tables and the following wen the prizes: First gentleman's,

Sidney—The Women's Guild of St.
Andrew's met on Wednesday afternoon for the first time since November, at the home of Mrs. G. Cochran, the president, Mrs. L. White, being in the chair. The secretary, Mrs. Wilson, read the minutes of the previous meeting, which were passed and adopted. Mrs. Philp then read the treasurer's report, which was adopted. It was decided to re-open the delicatessen store on Saturday afternoons. Other business was alscussed. Mrs. Cochran then gave tea to all. There was a good attendance, and two new members were well-comed.

Presents Given.

and two new memoers were comed.

Presents Given.

The Sunday School of St. Elizabeth Church had a Christmas treat at the home of Mrs. G. McMulca. The children thoroughly enloyed themselves, playing games. Later they were given a very good supper. Father Schelen presented silver medals to Adeline Crossley, Patricia Crossley, Theresa Thomas, Frances Thomas, Stanley Crossley, Patricia Crossley, Theresa Thomas, Frances Thomas for good attendance. John Segalerha was given a silver status for specially good work. Father Schelen then cut the presents from the Christmas tree, each child receiving a gift.

The Ladles' Aid of the Union Church held its monthly meeting at the home of Mrs. J. T. Taylor. There was a small meeting owing to the bad weather. Some business was arranged. Mrs. Taylor then served tea to all present.

An Accident.

Mr. Woodward had a nasty accident at the Sidney Mills in the early, hours of Tuesday morning. A water jacket burst and scalded him badly on the face and arm. Dr. Manning was sent for and at once gave media.

Safeguard Body From Wolves

When the body of Patrick Kelly was found frozen stiff in the snow on the Nattagami river, his trapping partner, William Fowler, tramped along an unblazed trail to Kapuskasing to inform the provincial police of the fatality. Hampered by stormy weather and dangerous ice on the river, Provincial Constable Kenny and a party of three men, along with three dogs and a toboggan, broke trail through the fur trapping country of the north to bring back the body. On the return trip with the dead man traveling conditions became so bad that the party had to abandon the body while they walked ahead for a day to break trail. They left the corpse on an elevated.

rien, of the free agricultural population at home.

The spirit of the nation had become harsh and base; there was no further extension of citizenship, no more generous attempts at the assimilation of congenial foreign populations. Spain was administered badly and settled slowly and with great difficulty. Complicated interventions led to the reduction of Illyria and Macedonia to the position of tribute-paying provinces; Rome, it was evident, was going to "tax the foreigner" now and release her home population from taxtion. After 168 B. C. the old land tax was no longer levied in Italy, and the only revenue derived from Haly was from the state domains and through a tax on imports from overseas. The revenues from the province of "Asia" defrayed the expenses of the Roman, state.

canus, and, after an interval of 2,000 years, men must like him still. He was able to throw torn paper in the face of the Senate, and when Luctus was attacked again, one of the tribunes of the people interposed his veto and quashed the proceedings. But Sciplo Africanus lacked that harder after with makes men great democratic leaders. He was no Caesar. He had none of the qualities that subdue a man to the base necessities of political life. After these events he retired in disgust from Rome to his estates, and there he died in the year 183 B. C.

only increased the pitiless arrogance of Rome and the pitiless greed of the rich Equestrian order which swayed her counsels. She now_démanded that Carthage should be abandoned, and the population removed to a spot at least ten miles from the sea. This demand they made to a population that subsisted almost entirely by overseas trade!

that subsisted almost entirely by overseas trade!

This preposterous order roused the Carthaginians to despair. They recalled their exiles and prepared for resistance. The military efficiency of the Romans had been steadily decilining through a haif-century of narrow-minded and base-spirited government, and the first attacks upon the town in 149 B.C. almost cined in disaster. Young Sciplo, during these operations, distinguished himself in a minor capacity. The next year was also a year of failure for the incompetents of the Senate. That august body then leased from a bullying mood to one of extreme panic. The Roman populates was even more seriously scared. Young Sciplo, chiefly on account of his name, although he was under the proper age and in other respect snot qualified for the office, was named donsul, and bundled off to Africa to save his precious country.

There followed the most obstinate and dreadful of sieges. Sciplo built a mole across the harbor and cut off all supplies by land or sea. The Carthaginians suffered horribly from famine; but they held out until the town was stormed. The street fighting lasted for six days, and when at last the citadel capitulated, there were fifty thousand Carthaginians left alive out of an estimated population of half a million. These survivors went into slavery, the whole city was burnt, the ruins were plowed to express final destruction and a curse was invoked with great solemnities upon any one who might attempt to rebuild it.

In the same year (146 B.C.), the Roman Senate and Equestrians also murdered another great city that seemed to limit their trade monopolies, Corinth. They had a justification, for Corinth had been in-arms against them, but it was an inadequate justification.

Reeve Lockley Pays Tribute to Assistance of the Government

Denies Liquor Story: Reviews Work Done During His Regime

indred and fifty voters of the Eshundred and fifty voters of the Esquimait district which congested the building, and crowded the steps leading to the hall at the Seamen's Institute last night, Reeve Lockley strongly attacked the policy of Councillor Pomeroy and his work on the council during the last four years. He also brought to the attention of the meeting the fact that to the present Liberal Government was due a great deal of thanks for the manner in which they assisted the municipality to reduce taxation, and help the unemployed problem of the past year.

In opening his address he stated that he wished to be elected not on his promises but what he had done for the municipality of Esquimatt and to this epal-he gave an outline of his work during regime in the Esquimatt and to this epal-he gave an outline of his work during regime in the Esquimatt and to this eval-he gave an outline of his work during regime in the Esquimatt and to this eval-he gave an outline of his work during regime in the Esquimatt and to this eval-he gave an outline of his work during regime in the Esquimatt and to this eval-he gave an outline of his work during regime in the Esquimati and to this eval-he gave an outline of his work during regime in the Esquimati and to this eval-he gave an outline of his work during regime in the Esquimati and to this eval-he gave an outline of his work during regime in the Esquimati and to this eval-he gave an outline of his work during regime in the Esquimati and to this eval-he gave an outline of his work during regime in the Esquimati and to this eval-he gave an outline of his work during regime in the Esquimati and to this eval-he gave an outline of his work during regime in the Esquimati and to this eval-he gave an outline of his work during regime in the Esquimati and to this eval-he gave an outline of his work during regime in the Esquimati and to the past of th

Those Frills.

"When I suggested the abolishing of the old grey mares that Esquimalt possessed, and the buying of trucks to take their place," stated Reeve Lockley, "it was said to be a Lockley frill, but figures show that I nave saved the municipality money through this action." The buying of trucks has saved hundreds of dollars for the district, and this money has gone to relief purposes, he asserted. "Then again," he continued, "the buying of a compression drill was another of my frills, but it saved the municipality alone, during the last 25 days \$1,003.75, all of which went to relieve the unemployment problem of the municipality." Not only was this saving of money pointed out, but also the saving of time.

"Mr. Pomeroy asks that more unanimity prevail among the councillors, and that the Reeve should take the councillors into his contidence," stated the Reeve; "but can a man take into his confidence a councillor who will say no when you say

Unemployment.

Dealing with the question of unemployment the Reeve related the incidents, of the special meeting counciliers reported that they had plenty of work, but could not find money to conduct it on. "They turned toward Mr. Lockley." the Reeve explained, "in an attitude of we six men have failed, it's up to you, Lockley." There was no aliternative, but to come to the aid on these work was commenced immediately. There is prospect of more work for some weeks to come." \$2,400 was realized from this source, and work was commenced immediately. The Franchise Question.
The Reeve criticized the reduction of the assessment. Dealing with the franchise question Mr. Lockley asked, "Why didn't Mr. Pomeroy, if he thought that the soldiers had no right to vote, take them indiscriminately instead of throwing those off the list who he thought favored the speaker. There was nothing more callous, more unfair or with less principle to it than the action of the majority of the court of revision in disfranching these veterans," said the speaker.

The introduction of "Pogos" into Victoria has been proceeding quietly for some time now. Pogos are the hopping sticks upon which the operator mounts as on a flat disc and grasping a vertical red makes progress in a series of springhly hops. Through the medium of the local stores. Pogos are beginning to find their way into public, the children having already halled them with keen delight. If the popularity of the Pogo in this city emulates the reception the kangaroo stick attained in the Old Country, Pogoparades may shortly be a common sight on the city streets. The difficulties of a traffic policeman faced with a dozen Pogo enthusiasts insisting on precedence of a heavy motor truck are better imagined than described.

Ward One, Saanich, in the Cedar Hill School last night in their campaign for the Saanich Municipal Council. Councillor Horner strongly urged the early collection of taxes so that the municipality could save money on bank interest. He stressed the importance of agriculture in Saanich and asked, "Would you cripple it with high wages,"

Mr. Kirkham said he favored a policy of permanent road work, but admitted that a certain amount of what might be called temporary work also was required. He favored metering of all water systems in Saanich, He said he had not investigated the new inter-municipal water scheme, and was not in a position to commit himself on it.

OUTLINE OF POLICY

Seeks Esquimalt's Support; Address Large Lockley Audience

WARD ONE VOIERS
HEAR CANDIDATES

Councillor A. E. Horner and H. O.
Kirkham addressed the electors of
Ward One, Saanich, in the Cedar Hill
School last night in their campaign
for the Saanich Municipal Council.
Councillor Horner strongly urged the

they had difficulty in finding money to finance any unemployment relief, and the money of the works department the progress of the works department during the past year, and urged residents to refer to the annual report which could be procured at the office.

Reasonable economy is the policy of Albert Herald, according to the short talk he gave the audience. Thomas Hadfield claimed that the district had not been getting results from the 1922 Council, owing to lack of harmony. He thought that the Reeve, whoever he might be, should be given every support by the Council.

di.

Mr. Walcroft, although a comparative stranger in the district, said he sought election. "I have had considerable experience in handling big and important jobs and my presence on the Council would be of value," stated Mr. Walcroft.

Richard W. Dent assured the electors taht if elected he would meet all problems that he thought he could solve, with intelligence. He said he was of the opinion that at the end of the year Esquimalt would be one of the foremost municipalities in Canada.

ada.

In closing the evening's programme James Nicol asserted that more boosting and less knocking were required. He hoped the electors would support the Council, and enable them to advance the municipality of Esquimalt.
